Imagine SOFTWARE

ImagineBilling™

KEY BENEFITS

- Improves cash flow
- Streamlines billing and collections
- Flexible database structure and integrations
- Real-time productivity monitoring
- Client driven analytics & reporting

REINVENTING REVENUE CYCLE MANAGEMENT FOR AN EFFICIENT AND PATIENT CENTERED EXPERIENCE

ImagineBilling™ is automated medical billing software that reduces the lifecycle of claims, streamlines denial management, improves cashflow and increases profitability. Designed as a complete system, the software is both flexible and scalable to increase your revenue.

ImagineBilling™ meets the needs of ambulatory practices, emergency departments, and billing companies across the country by allowing you to run your business and increase your patient care, all while applying the highest quality standards to data integrity and security.

"With ImagineBilling™ we have seen a 20% increase in collected revenue from a previous billing company we were using, and there wasn't a drop in cash during our transition & implementation period. Very Impressed!"
