

*Imagine***Intelligence**[™]

*Imagine***Intelligence**[™]

Monitor the health of your
business under one dashboard
with enterprise level reporting,
real-time notifications and
constant system monitoring.

AGILE. ACCURATE. AUTOMATED.

YOUR FINANCIAL SUCCESS STARTS WITH BUSINESS INTELLIGENCE AND ANALYTICS

With *ImagineIntelligence*™ you can connect multiple data sources under one dashboard and gain a bird's eye view of your practice's operations. Filter down reports by time, location, insurer and build reports based on what you want to track. You can also set automated reports to track what impacts your business the most to build context-aware analyses. *ImagineIntelligence*™ can give you a clear view of your future by analyzing your past and current business trends.

KEY BENEFITS

Control and centralize big data

Real-time forecasting and analytics

Interactive dashboard

Customizable

Context-aware analyses

Roll-up reporting

Filter reports by time, location, insurer & more

"The BI tool is all you really need to effectively manage your A/R."
